

The World's Longest Driver Auction

Sponsored by _____

This auction starts with a minimum bid of \$215 and a BUY-IT-NOW cost of \$349. These clubs list for \$499 on the manufacturer's website. If someone takes the BUY-IT-NOW, others can also get one for that price, but we'll have to order it for you. Thank you for bidding on this club. Your bids are going to a great cause.

This unique 5-Foot driver is the longest production driver with the largest head in the world!

It can smash the ball out of sight, **if you can make contact!!!** With practice you can hit fantastic drives. Let your friends try it and they might whiff! It is fun to watch great shots as well as bad ones.

The shaft is TELESCOPIC!

It collapses down to 35 inches. So you can take it with you on trips, keep it in your trunk, and show it off to your golfing friends any time you wish!

Many people display it in their office fully-extended where it is sure to start a conversation.

This club is **ABSOLUTELY ILLEGAL FOR USGA TOURNAMENTS**. It is also not recommended for regular play because it is too wild! But it is sure fun to hit on a driving range.

The World's Longest Driver
is manufactured by
www.DivnickGolf.com

DivnickGolf offers a variety of other telescopic clubs for travel, including the "Whole-In-One" Adjustable Loft Golf Club, hybrids, wedges, and a several putters.
